

Mohammad Rahil Zaid Ansari

📍Hyderabad(T.G) | ✉️ mohammadrahilzaidansari@gmail.com | (+91) 7697479786

Education:

- **Masters in computer application** | Gyan Ganga Institute of Technology & Science | RGPV 2025
- **Bachelors in computer application** | Katni Arts and Commerce College | RDVV 2020
- **Higher secondary education** | St. Paul Senior Sec. School, Katni | CBSE 2017
- **Secondary education** | St. Paul Senior Sec. School, Katni | CBSE 2015

Work Experience:

TechnoIndia | Remote Customer Service Associate – L2

(Inbound Chat, Myntra Domestic Process) May 2023 – May 2025

- Handled inbound customer chat queries related to orders, deliveries, cancellations, returns, refunds, and payments.
- Provided advanced (L2-level) resolution for escalating and complex customer issues beyond L1 support.
- Assisted customers with order tracking, delayed deliveries, missing items, and damaged product complaints.
- Processed returns, replacements, refunds, and wallet adjustments in accordance with Myntra policies.
- Investigated and resolved payment failures, refund delays, and promotional or coupon-related issues.
- Coordinated with internal teams (logistics, warehouse, quality check, and finance) to ensure timely issue resolution.

Technical Skills:

- **Query Language:** SQL
- **Relevant Coursework:** Database Management Systems (DBMS), Data Analytics
- **Programming Language:** Python
- **Tools & Platforms:** Visual Studio Code, Tableau, Power BI

IT Support & Troubleshooting:

- Desktop Support & Windows Troubleshooting, End User Support
- MS Office Tools, Windows OS Environments, Office 365
- Operating Systems, Software Applications, and Remote Connection Systems

Projects:

Inventory Management System

Internship Project – Vector IT Solution, Jabalpur | January 6, 2025 - April 1, 2025

- Re-engineered a multi-user inventory management platform enabling real-time stock updates and streamlined data handling, reducing order processing errors by **25%** and improving inventory tracking efficiency.
- Designed and developed the user interface using **HTML** and **CSS**, with back-end data managed through **DBMS**.

Bank Management System Academic Project | 2020

- Designed and implemented a **Loan Eligibility System** leveraging **CIBIL score analysis** to automate application assessments, reducing processing time by **40%**, and enhancing decision accuracy while ensuring regulatory compliance.
- Built the front-end interface using **HTML** and **CSS**, with back-end data management handled through **DBMS**.

Certifications:

- **Python Core – LIVEWIRE**, Jabalpur
- **Deloitte Australia – Data Analytics Job Simulation (Forage, July 2025)**
 - Built a dashboard in **Tableau** and applied **Excel** for data classification and business insights
